9am - 3pm

\$5.00 per rifle open to public

Volunteers needed (5 per day) to assist with adjusting scopes, spotting and setting targets. Contact Mark Mills to schedule volunteer day/time. Thank you.

TURKEYSHOOT

November 18, 2023

Details will be published next month in the newsletter and on the website.

To all the volunteers who worked on the Rifle Range Project...Thank you for generously sharing your time and energy with us! You gave us a helping hand when we needed it, and the work you did supports all who use the the range. The range looks amazing! Thank you.

PRESIDENT'S MESSAGE

We have just about have the rifle range back together. Really happy about the members who showed up for the concrete pours and the reconstruction. Thank you all very much. Still can use some more help to pour the remaining benches and supports. Still have the storage rooms and Suntuff to install. The rifle rests and shelves are done. Will be able to put the rifle shed back in service next range day regardless of progress this week. Will try to pour on Wednesday (August 30) if I can get everything ready by then. Will be cheaper to have concrete delivered than mix it ourselves. Currently we are on track to come in about four thousand dollars under budget. Schedule for work is to usually start at 7 am and end at noon, except for this coming Monday. I do have to take care of my own business upon occasion. Hope to see some of you this coming week.

Jim Patrick

Rifle Range - What a Change

August 5th was the beginning of the Rifle Range Remodel. 25 people showed up to participate in

the removal of storage items, wood stove, removing the storage walls and

back wall. The benches were moved to the 25 meter berm so people could still use

the range.

A huge thank you to all. As a result of so many people this part of the project took 2-1/2 hours. We had a Bar-B-Q for all

who came to the range and Dan Geisert had a Buy-Sell-Swap Meet.

August 12th was the 1st pour of concrete. This was in the back of the building.

On August 15th the 2nd concrete pour completed the first half of the front and on

August 17th the final pour complete the second half of the front.

On August 22nd work started to rebuild the back walls and rifle racks.

Work will continue this next week on rebuilding the interior of the rifle range in hopes of having all ready for the stands to be returned to the rifle range.

RANGE DAY WORK will consist of putting the stands back in the building, constructing new stands, weedeating, target repair and other monthly maintenance items.

2023/2024 BTRPC Officers:

President: Jim Patrick
